MESO MICRONEEDLE

At the core of Pietro Simone's Meso Infusion Microneedling lies a clinically advanced device engineered for skin bioactivation. Its adaptive mobile head ensures the needles maintain perfect perpendicular entry, regardless of the skin's surface or contour — a breakthrough that provides pinpoint accuracy, reduced trauma, and optimal dermal penetration. This technological precision allows for the controlled creation of micro-channels, which initiate a cascade of skin renewal responses.

EXOSOME REJUVENATION THERAPY

A next-generation Rejuvenating treatments powered by clinical-grade exosomes, meticulously sourced from ethically derived mesenchymal stem cells or plant based. These transformative treatments deliver a potent surge of exosomes, growth factors, peptides, proteins, enzymes, coenzymes, and hyaluronic acid directly into the skin's deepest layers.

Exosomes are the gold standard in cellular communication — biologically active nanovesicles that instruct your skin cells to regenerate, heal, and rejuvenate from within. This 360° regenerative therapy dramatically improves skin tone, texture, firmness, and hydration, accelerating collagen production and visibly reversing signs of aging.

- Increases collagen and elastin production by up to 600%
- Reduces fine lines, wrinkles, and pigmentation
- Enhances cellular turnover and skin vitality
- Calms inflammation and supports skin recovery
- Improves texture, tone, and barrier resilience

V-LIFT

A non-invasive, luxurious treatment designed to firm, tone, and enhance both internal and external intimate tissues. Using advanced Co-Polar® & Core® technology, gentle internal heating stimulates collagen, elastin, and natural lubrication for improved elasticity. External, radio frequency & fractional RF refine, tighten, and brighten the vulva, reducing signs of aging and restoring suppleness. Experience renewed confidence and intimate comfort with this discreet, effective, and expertly tailored treatment.

90 mins **\$1,200**

Recommended Sessions: 4. Note: Consultation required prior to treatment. Exosome infusion can be added to maximize the result.

V-VR INTERNAL REJUVENATING TIGHTENING

This non-invasive procedure is designed specifically to firm, tone, and enhance the internal vaginal tissue. Two advanced technologies, Co-Polar® & Core® gently heat the area leading to an increased vaginal elasticity of the connective tissue by stimulating collagen and elastin and increasing vaginal natural lubrication. Each session is conducted with utmost discretion and care, providing a comfortable and dignified experience.
